

# Our Students in Math...

- have multiple strategies
- enjoy math
- work together
- listen to each other
- willingness to use diff. tools
- ask for help
- like to try a challenge

- ask for help before trying
- not willing to take a risk
- lack perseverance
- lack organization on paper
- lack of memorization skills
- not able to transfer - show copy from board → paper or text → paper
- don't know how to show their learning on paper

Handwritten notes and sticky notes at the bottom of the page, including a pink note that says "Keep your MS's work" and a yellow note with "MS's" written on it.
